

macroblock_chroma_prediction

```
graph LR; A[macroblock_chroma_prediction] --> B[best_8x8_chroma_prediction]; A --> C[do_8x8_chroma_prediction]; A --> D[enum_8x8_chroma_prediction]; B --> C;
```

The diagram is a flowchart with four rectangular boxes. The box on the left is shaded gray and contains the text 'macroblock_chroma_prediction'. Three arrows originate from its right side: one points to a white box at the top labeled 'best_8x8_chroma_prediction', one points to a white box on the right labeled 'do_8x8_chroma_prediction', and one points to a white box at the bottom labeled 'enum_8x8_chroma_prediction'. Additionally, an arrow points from the 'best_8x8_chroma_prediction' box to the 'do_8x8_chroma_prediction' box.

best_8x8_chroma_prediction

do_8x8_chroma_prediction

enum_8x8_chroma_prediction
